The bill holders should con upe to be protected as at present, under to banking law. There should be no lime ation to the volume of currency, as the community itself should determine what amount is required for business transactions, instead of the executive, secretary of the treasury and congress to fix the limit. It would be the duty of congress, however, to make the regulations regarding the free banks of issue, and to state the conditions of such. They can be organized, and transact business, and the legislation to be in accordance with the new order of things, or, in other words, the resumption of specie payments. There should be no monopoly by fixing the amount of issue. The president will recommend that congress do not interfere with the present currency act that was passed during the last session, unless to amend it so as to conform with a plan for the resumption of specie payment. The precident will make no recommendations on the subject of interestal interests.

The President's Message.

We give the readers of THE CONSTI-TUTION this morning the message in full. crowded out, and our editorial is neces-sarily brief.

We wish, too, that we could give our views at length of the message, in some respects a very extraordinary document. It opens with a discussion of the finan cial question, recommending a speedy return to specie as the only hope of pros perity. Our foreign relations are then shown to have been agreeable the past year. He has much to say of the year. He has much to say of the affairs of foreign nationalities, of treaties, naturalization, tariff laws, the army, etc. But we must pass them and come to his views on state matters, and questions more directly interesting to the south. Our Clear justifies his use of the bayonet in the south, howls like a genuine radical about murder and intimidation, and is pleased to say that perhaps some few southern states may have suffered a little from bad governments. In fact, Grant's measage thows less feeling for the south omment at length to-morrow.

Washington, December 4, 1874. After a long vacation spent in ramb-ing from the shores of the Potomac to be sea-girt and rock-bound coast of Maine, the writer resumes his Washing ton correspondence with the Constitu-tion, and tenders kindly greetings to its and his readers. During the coming session he hopes to keep at least abreast with the times, and to inform the fifty housand patrons of the Constitution of all that transpires at the national capital, through the medium of the mails

THE COMING SESSION bids fair to be an exceedingly lively though there are some who predict that it will be of the hum-drum order. Cer-tainly the republican members who have arrived up to this time, are tame enough. Every look, every movement, indicates that they are cowed by defeat. Nor are the democrats so jubilant as one might expect. It is evident that they feel the increased responsibility now resting upon them, for upon their deliberations and votes depends, in a large measure, the success of the democracy in the presidential campaign. There must be no rash expressions of opinion, no injudicious votes, to stay the rising tide that is to overwhelm radical-ism with its usurpations and corruptions. Patience and prudence will enable us to win, and this the democratic leaders seem to be fully aware of.

NEW ORLEANS, December 7.—The following telegram was received at Emory's headquarters. Jackson Miss, to Secretary E. P. Platt, Adjutant General Department of the Gulf of New Orleans. Adjutant General Ilacker reports to Gov. Ames from Vicksburg by telegraph, that the riot and fighting began at nine o'clock this morning and that the militia are powerless to maintain order and that mobs have possession of Sheriff Perron, and to d the court house with armed force, the extent of fighting is not yat known. Signed, Arther W. Allyn, Captain 16th Infantry.

NEW ORLEANS, Dec. 7.—A special dispatch to the Builetin, from Vicksburg, says seven hundred negroes attacked this city this morning, on three different roads leading to it. They were driven back with a loss of 25 killed and wounded. Forty of them were taken prisoners. The whites had one man killed and two wounded. The attack was made for the purpose of reinstating Crosby, sheriff, who was requested to resign because he had not given bond. The negroes in the country are reported as burning dwelling and gin houses.

PROSECTION IN RUSLIUSS and industries, such as has not been witnessed with us for many years. Speculation as to the causes for this prostration might be indulged in without profit, because as many theories would vanced as there would be inde vanced as there would be independent vitiers, those who expressed their own views without borrowing upon the subject. Without indulging in the theories as to the cause of this prostration therefore I will call your attention to the fact and o some plain questions, as to which it would seem there should be no disagreement. During this prostration two essential elements of prosperity have been most abundant. Labor and capital both have been largely unemployed.

Bill to provide a site for the Peabody school in Saint Augustine, Florida.

Where security have been undoubted, capital has been attainable at very moderate rates. Where labor has been wanted, it has been found in abundance at cheap rates, compared with that of necessaries, and comforts of life could be purchased with the wages demanded. Two great elements of prosperity, therefore, have been denied us. A third might be added. Our soil and climate are unequalled within the limits of any contiguous territory under our national clothe a people, and in that amount of surplus to spare to feed less favored people. Therefore, with these facts in clothes a people, and in that amount of surplus to spare to feed less favored people. Therefore, with these facts in clothes a people, and in that amount of surplus to spare to feed less favored people. Debt abroad is the only element that can, with always a sound currency, enter into our affairs to cause any con-tinued depression in the industries and prosperity of our people. A great

CONFLICT FOR NATIONAL EXISTENCE made necessary, for temporary purpose the raising of large sums of money fro the raising of large sums of money from whatever source attainable. It made it necessary, in the wisdom of congress, and I do not doubt their wisdom in the premises, regarding the necessity of the times, to devise a system of national currency, which it proved to be impossible to keep on par with the recognized currency of the civilized world. This begot a spirit of speculation, involving an speculation, involving an

These two causes, however, have involved us in a foreign indebtedness, contracted in good faith by borrower and lender, which shall be paid in coin, and according to bond agreed upon, when the debt was contracted in gold or government cannot be violated towards creditors without national disgrace; but our commerce should be encouraged,

Where a new market can be created for the sale of our products, either of the soil, the mine or products, either of the soil, the mine or the manufactory, a new means is discov-ered of utilizing our idle capital and la-bor to the advantage of the whole people; but in my judgment the first step to-wards accomplishing this object is to se-CURRENCY OF FIXED STABLE VALUE.

Interest upon capital must be charged, and risk of fluctuation in value of that which is to be received in payment added hence to high prices, acting as a protection to the foreign producer, who receives nothing in exchange for his products except a currency good at a staple value the world over. It seems to me that nothing is clearer than that the greater part of the burden of the existing prostration for the want of a sound financial system, falls on the workingman, who must, after all, produce the wealth, and the salaried man, who superintends and conducts the business. FREE BANKING MAY BE AUTHORSZED with safety, giving full protection to bill holders, which they have moder existing laws. Indeed, I would regard free banking as essential. It would give proper elasticity to the currency, as more currency should be required for the transaction of legitimate business; new banks would be started and in turn banks would wind up their business when it was found that there was a supersbundance of currency. The experience and judgment of the people can best decide just how nuch currency is required for the transaction of the business of the country. The facts of the homicide are these: Mr. Laurence Branan, aged about sinctones, who was at the time of his death, a train hand on the Atlants & West Point, railroad, went down on his train to West Point, on Saturday. The Higginbotham House was the one at which he boarded when in West Point. Saturday night he had been out to the railroad, and in company with Mr. Thos. Cole, an intimate friend, was returning to his boarding house about 8 o'clock. Upon approaching the house, or bor, ms. > BISHOP R. W. B. ELLIOTT. His Farewell Sermon.

Sunday was a most inclement day, and is serion to his parish in our city, and all he could be present were there to hear in. His text was taken from the 8th tapter of Hebrews, and the 13th verse; lesus Christ the same yesterday, to-day of forever."

He dwelt at length upon the immutability

e immutability of the son as the second rson of the Holy Trinity. From this ernal uuchangeableness of God and his on, he drew many comforting lessons to ose who trust in him. He never fails to those who believe Is him.

At the conclusion of the sermon, the bishop said a few words of parting to his congregation. He spoke of the ties that bound him to our people, and the many pleasures he would be compelled to leave. He gave them good counsel as a church, and urged them to be alive in faith and active in good works.

The bishop then administered the rite of

A Parsonage Ransacked.

A very daring burglary occurred in the city on Sunday night. The parsonage of Payne's chapel situated on Luckie street just back of the church was entered and various trunks, bureaus and other articles of funiture contained in it were broken open.

On Sunday afternoon, Mr. Grubb, one of stewards of the church, went into the house to get a lamp. He found the contents of several trunks spread out on the floor and suspected that somebody had been in the nouse the night before. Nothing was then missed. ered and va. Roswell-W. Manning, supply

house the night before. Rothing was also missed.

On Monday morning, the neighbors discovered that the back door was open. Some of them went into the house and found that it had been completely ransacked. Entrance was obtained by breaking the lock of the back door with a cold chisel. It is supposed that the burglars escaped by means of a front side light which was broken out. In every room some signs of their mischief was found. Every trunk in the house was broken onen and part of their contents ras found. Every trunk in the house was roken open and part of their contents brown on the floor. Wash stands and bucaus were also broken open. In one room cold chisel was found,

A Caution to Boys.

On Sunday morning Master Braxton C. Fuller, who resides on Mechanics street, and is about twelve or thirteen years of age, and is a genial, jovial boy, quite popular with all who know him, mit with an accident that will serve to caution other boys in handling fire arms.

Braxton, it seems, determined to have a little amusement with his mother's cook, and bownwed from a comparion a little platel with the intention of firing it down the chimney to frighten the cook. Sunday morning about 7 o'clock he was in the kitchen examining the little gun, not knowing that it was loaded, when by some means it fired off. The ball entered the flesh part of his left hand just below the thumb and ranged up, and lodged just above his wrist on the opposite side from where it entered. Braxton kept the accident to himself until after breakfast, when it began to prove painful to him and the fact was made known, when the ball was extracted by Dr. W. C. Asher. He will recover from it in few days. Braxton bore it manfelly, and says that he isdone with pistole.

lish the following from the New York Herald:

A telegram from Boston, under date of the 1st instant, reports as follows: This atternoon General Robert O. Tyler, chief quartermaster of the second military district of the Atlantic, died very suddenly of neuralgia of the heart at the Coolidge house, in this city. General Tyler was a native of New York, and graduated at West Point. His services in the late war were prominent, and his career a most gallant one. In 1869 he was chief quartermaster of the army of the south. He entered the service as second lieutenant, by brevet, of the second regiment of an artillery, on the first of June, 1863. His promotion was gradual, the result of close attention to every duty of his position, and he was commissioned captain and quartermaster on the 17th of May, 1865. His patriotism and personal bravery merited for him the rank which is resorded above.

Its operation is not violent, but is characterized by great gentleness; the patient experiences no sudden change, no marked results, but gradually his troubles "Fold their tents, like the Arabs, And silently steal away."

This is new and untried discovery, but has been used with wonderful remedial results, and is pronounced by the highest medical authorities "the most powerful tonic and alterative known."

Ask your druggists for it.

GOOD NEWS FOR ALL DUNLOPS COLD & COUGH SYRUP HAS NEVER PAILED TO CURE THE most obstinate Coughs and Colds.

under the supervision and assistance of Dr. Calhoun himself. This Pill has been in use for the last 35 years, and has taken proce, dence over all other Family preparations by all that have used them. Thousands would certify to their great value if necessary. One tact should supercede any amount of certifactes, and that fact is this: Dr. Calhoun has been physician to the Fulton County Prisons for over seven years, when the number of prisoners ranged from 20 to 70, laboring under all the diseases incidental to this climate. With but few exceptions they have all been treated with this Pill, and astonishing to say during that long period not a solitary death occurred under his treatment. This fact is worth any amount of testimonials.

I am now prepared to fill orders from druggists, merchants and others. All orders sent me shall receive prompt attention. There is no type of FEVER, DYSPEPSIA, DIARRHUGA, DYSENTERY, RHEUMATISM, CHOLERA MORBUS, BILLIOUS-NESS and SIUK HEADACHE, or other diseases of a Southern climate, but yield readily to this preparation.

For sale by all druggists.

Price 50 cents a box.

TO THE PUBLIC.

In again calling attention to our popular grades of flours, we will attempt no further elaboration of their merits, except to say, that no flour in the wide world can surpass our FFF in purity of stock and richness of sample; and that the world can't produce a more substantial or nutritive flour than our FF.

The Family is good for the price, but, necessarily limited in quantity; being made only when we make the FFF.

We can readily fill orders for FFF and FF; but in selling Family, we are compelled to limit the orders to the supply on hand.

Orders for the three grades in equal quantity can be filled at short notice, or for FFF and Family in nearly equal quantities. Orders can generally be supplied promptly.
